

## VT FITZROY CALIBRATION CENTRE

Electronic Test Equipment Specialists

The VT Fitzroy Calibration Centre specialises in calibration and repair of electronic test equipment. We are one of the largest and most technically capable calibration laboratories in New Zealand. Our range of measurements and experience of our staff are world class.

Established in 1944 to provide measurement assurance to the Royal New Zealand Navy, we supply calibration services to both NZ Defence and commercial clientele.

The Calibration Centre is a Fluke Authorised Service Centre.

We hold certification to ISO 9001 and IANZ Accreditation to ISO17025. Combined with these credentials and active participation in worldwide proficiency tests, we remain confident that our services are the finest available. If you require general test tool calibration or industry specialist calibration services you need look no further.

- One of the most extensive and capable calibration centres in New Zealand
- Highly experienced staff
- Extensive library of manuals, information and test procedures
- Our standards are fully traceable to NZ, Australian or NIST National standards of measurement
- Wide range of Automatic Test Equipment

- Training in measurement

### Accreditation

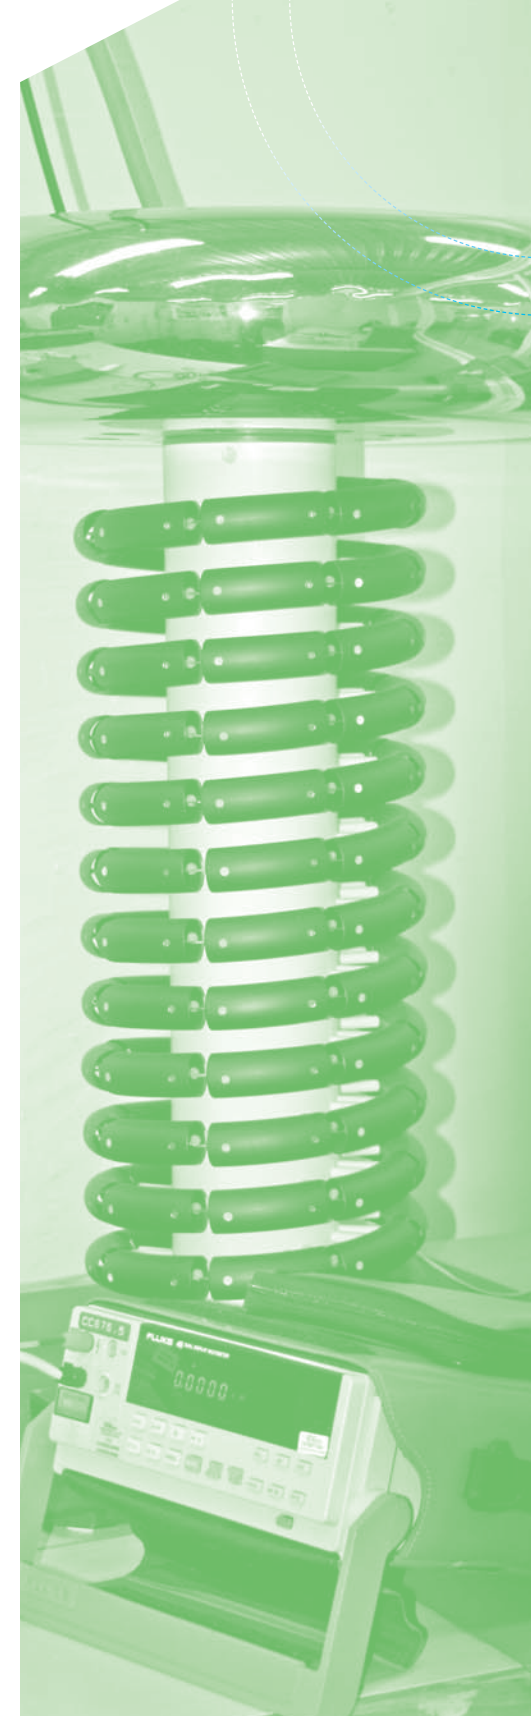

- An IANZ Accredited Calibration Laboratory
- ISO 17025 accredited
- ISO9001
- Successful participation in International proficiency programs
- Confidence in fully traceable Internationally recognized standards

### Our Difference

Not all calibrations and calibration reports are equal. Some are limited by the equipment held by the testing laboratory, and not all functions of your test equipment can indeed be tested.

The VTF Calibration laboratory is very well equipped, ensuring that we can test all functions of your test equipment. We specialise in undertaking complete equipment testing and we notify customers in the rare event that this is not possible.

The report that we provide to you will include all of the important identification information as well as the calibration data. We supply IANZ endorsed reports if traceability and international endorsement is required.

## BRANDS THAT WE CALIBRATE

Agilent	Jofra
Amplifier Research	Kaise
Anritsu	Keithley
AVO	Kenwood
Beckman	Kyoritsu
Biddle	LeCroy
Bird	Lutron
Boonton	Marconi
Bruel & Kjaer	Megger
Collins	Philips
Datron	Racal Dana
Dranetz	Robin
Druck	Rohde & Schwarz
Entek	Seaward
Escort	Shimpo
Fluke	Siemens
Genrad	Sika
Gigatronics	Tegam
Hart	Tektronix
Hewlett Packard	Valhalla
Hioki	Wandel & Goltermann
Hitachi	Wavetek
Honeywell	Wayne Kerr
IFR	Wiltron
Iwatsu	Yokogawa
